

Quality Seal “Low Emission Product” for your product VEGRASIL M 21

Dear Mr Uhlemayr,

We are pleased to inform you that you are entitled from now on to label your product

VEGRASIL M 21

which conforms with the criteria of the trade initiative “Spray Powder in Offset” with the quality seal “Low Emission Product” by the BG ETEM (= German Accident Prevention & Insurance Association for the Energy, Textile, Electronics and Media Industries).

Please note:

Basically, the validity of this quality seal has no time limit. However, the granting of the quality seal is exclusively valid for the currently submitted analysis results which have to be repeated every year. After receipt of the current analysis results we will verify these and decide about a continuation of the quality seal.

Best regards,

Field: Printing and Paper Processing
Department: Working Processes
